Special Instructions

- **Trades or Businesses that are under Common Control.** For a group of trades or businesses under common control (whether or not incorporated), the credit for increasing research activities is figured as if all the organizations are one trade or business. The credit figured for the group must then be shared among the members of the group on the basis of each member's proportionate contribution to the increase in research expenses.
- **Adjustments for Certain Acquisitions and Dispositions.** If a major portion of a trade or business is acquired or disposed of, adjustments must be made to research expenses for the period before or after the acquisition or disposition.
- **Short Tax Year.** For any short tax year, qualified research expenses are annualized.
- **Apportionment of Credit.** The credit figured on lines 1 through 32 by a partnership, S corporation, estate or trust are apportioned to the individual partners, shareholders, or beneficiaries, respectively. This apportioned credit is entered on line 31 of a separate form IA 128 to determine the allowed credit to be entered on their tax returns.
- **Research Activities Conducted under the New Jobs and Income Program, New Capital Investment Program, High Quality Job Creation Program or the Enterprise Zone Program.** If research activities are conducted by eligible businesses under any of these programs, the amount of the Iowa Research Activities Credit may be doubled. Effective July 1, 2005, research activities under the high quality job creation program or under the enterprise zone program includes the development and deployment costs of innovative renewable energy generation components manufactured or assembled in Iowa. This cannot include components with more than 200 megawatts of installed effective nameplate capacity. These costs are not eligible for the federal research activities credit. A separate form IA 128 must be completed to account for these expenses, which can be included on lines 5 and 20 of the separate form IA 128. The amount of the additional credit relating to these costs cannot be doubled.

EXAMPLE: An eligible business computes an Iowa research activities credit of \$50,000 excluding any costs relating to innovative renewable energy generation components. When the costs relating to innovative renewable energy generation components are included on lines 5 and 20, the Iowa credit is \$75,000. The business can double the credit for the \$50,000 computation, which would result in an Iowa credit of \$100,000. This can be added to the additional credit relating to the innovative renewable energy generation components of \$25,000, resulting in a total Iowa research activities credit of \$125,000.

Note: If you are a shareholder, partner, or beneficiary with a credit from two sources, such as from a sole proprietorship and a partnership, figure the credit of the proprietorship on form IA 128, lines 1 through 30, if you are claiming the research credit. Then enter the flow-through credit from the partnership on line 31 and complete the rest of the form to determine the credit to be entered on your tax return.

Any individual, estate, trust, organization or corporation claiming an Iowa credit for increasing research activities or any S corporation, partnership, estate or trust that shares the credit among its shareholders, partners, or beneficiaries should attach this form to its Iowa income tax return.

S corporations, partnerships, estates and trusts that share the credit among their shareholders, partners or beneficiaries must show on Schedule K-1, or on an attachment to Schedule K-1, the credit for each shareholder, partner or beneficiary.

LINE INSTRUCTIONS

PART I:

COMPUTATION OF CREDIT FOR INCREASING RESEARCH ACTIVITIES

Line 1. Enter the amounts you paid or incurred to energy research consortia. In general, an energy research consortium is any organization described in section 501(c)(3), exempt from tax under section 501(a), organized and operated primarily to conduct energy research, and not a private foundation.

Line 2. Corporations other than S corporations, personal holding companies, and service organizations enter cash payments to a qualified university or scientific research organization pursuant to a written contract.

Line 3. Enter the base period amount as defined in section 41(c) of the Internal Revenue Code. A portion of this amount not to exceed the amount on line 2 can also be treated as a contract research expense on line 8 of this form subject to the 65% or 75% limitation.

Line 4. If line 2 is greater than line 3, enter the difference. If line 3 is greater than line 2, enter zero.

Line 5. Enter any wages paid or incurred to an employee for qualified services performed by such employee.

Line 6. Enter the amounts paid or incurred for supplies used in the conduct of qualified research.

Line 7. Enter the amount paid or incurred to another person for the right to use computers in the conduct of qualified research. This entry must be reduced by any amount you receive or accrue from any other person for the right to use substantially identical personal property.

Line 8. Include 65% of any amount paid or incurred for qualified research performed on your behalf. Also, include 65% of that portion of line 3 that does not exceed line 2. Use 75% in place of 65% for payments made to a qualified research consortium.

Line 10. Enter the fixed-base percentage, not to exceed 16%. See section 41 (c) of the Internal Revenue Code.

Line 11. Enter the average annual gross receipts for the four tax years preceding the tax year for which the credit is being determined. For any short year you may be required to annualize gross receipts. See IRC sections 41(c)(1)(b) and 41(f)(4) for details.

PART II:

PERCENTAGE OF RESEARCH ACTIVITIES OCCURRING WITHIN IOWA

Lines 17, 18, 21, 22 and 23. For these lines, enter only that portion of lines 1, 2, 5, 6 and 7 respectively that are for qualifying expenses occurring in Iowa.

Line 19. Enter the amount on line 3 that is attributable to Iowa sources. For purposes of apportionment, the amount on line 3 should be prorated by the amount on line 18 divided by the amount on line 2.

Line 24. Enter the amount on line 8 that is attributable to Iowa sources. For purposes of apportionment, the amount on line 8 should be prorated by the ratio of contract services performed in Iowa to total qualifying contract expenses. Do not include any expenses that are already reflected in line 4 or line 18.

Line 31. If you received flow-through research credit(s) from a partnership, S corporation, or estate or trust, enter the amount of the credit(s) on this line. You must also include a copy of the IA 128 from the partnership, S corporation, or estate or trust as well as a schedule showing the apportionment to individual partners, shareholders or beneficiaries.

Line 32. Add lines 30 and 31 and enter the sum. This is total allowable Iowa Research Activity Credit. Also, enter this figure on the IA 148 Tax Credits Schedule. The IA 148 must be completed and attached to the tax return.
